

web3 wallet

Pitch deck

wagmi

Problem

- Virtually all the wallets connect to networks via centralised web2 services 😞
- DeFi on mobile is barely usable
- Web3 in danger of being just a meme

Solution

web3 SDK

- Multi chain L1s & L2s
- ERCs, SPLs, NFTs
- iOS, Android, Web
- MIT license
- Focus on building your web3 app, not boiler plate code
- Right defaults

wagmi

web3 wallet

- By degens for degens
- Connects directly crypto networks (not via web2)
- Direct in app support for large suite of smart contracts
- Self custodial, Multi chain, L1s, L2s
- No tracking, no backend, max privacy
- Wallet connect
- Hardware wallet support
- Linux of crypto wallets
- Uncompromising on cypherpunks values

web3 Apps

- E2E messaging using wallet for identity and authentication
- Decentralized, uncesorable social media
- web3 everything !

Market validation

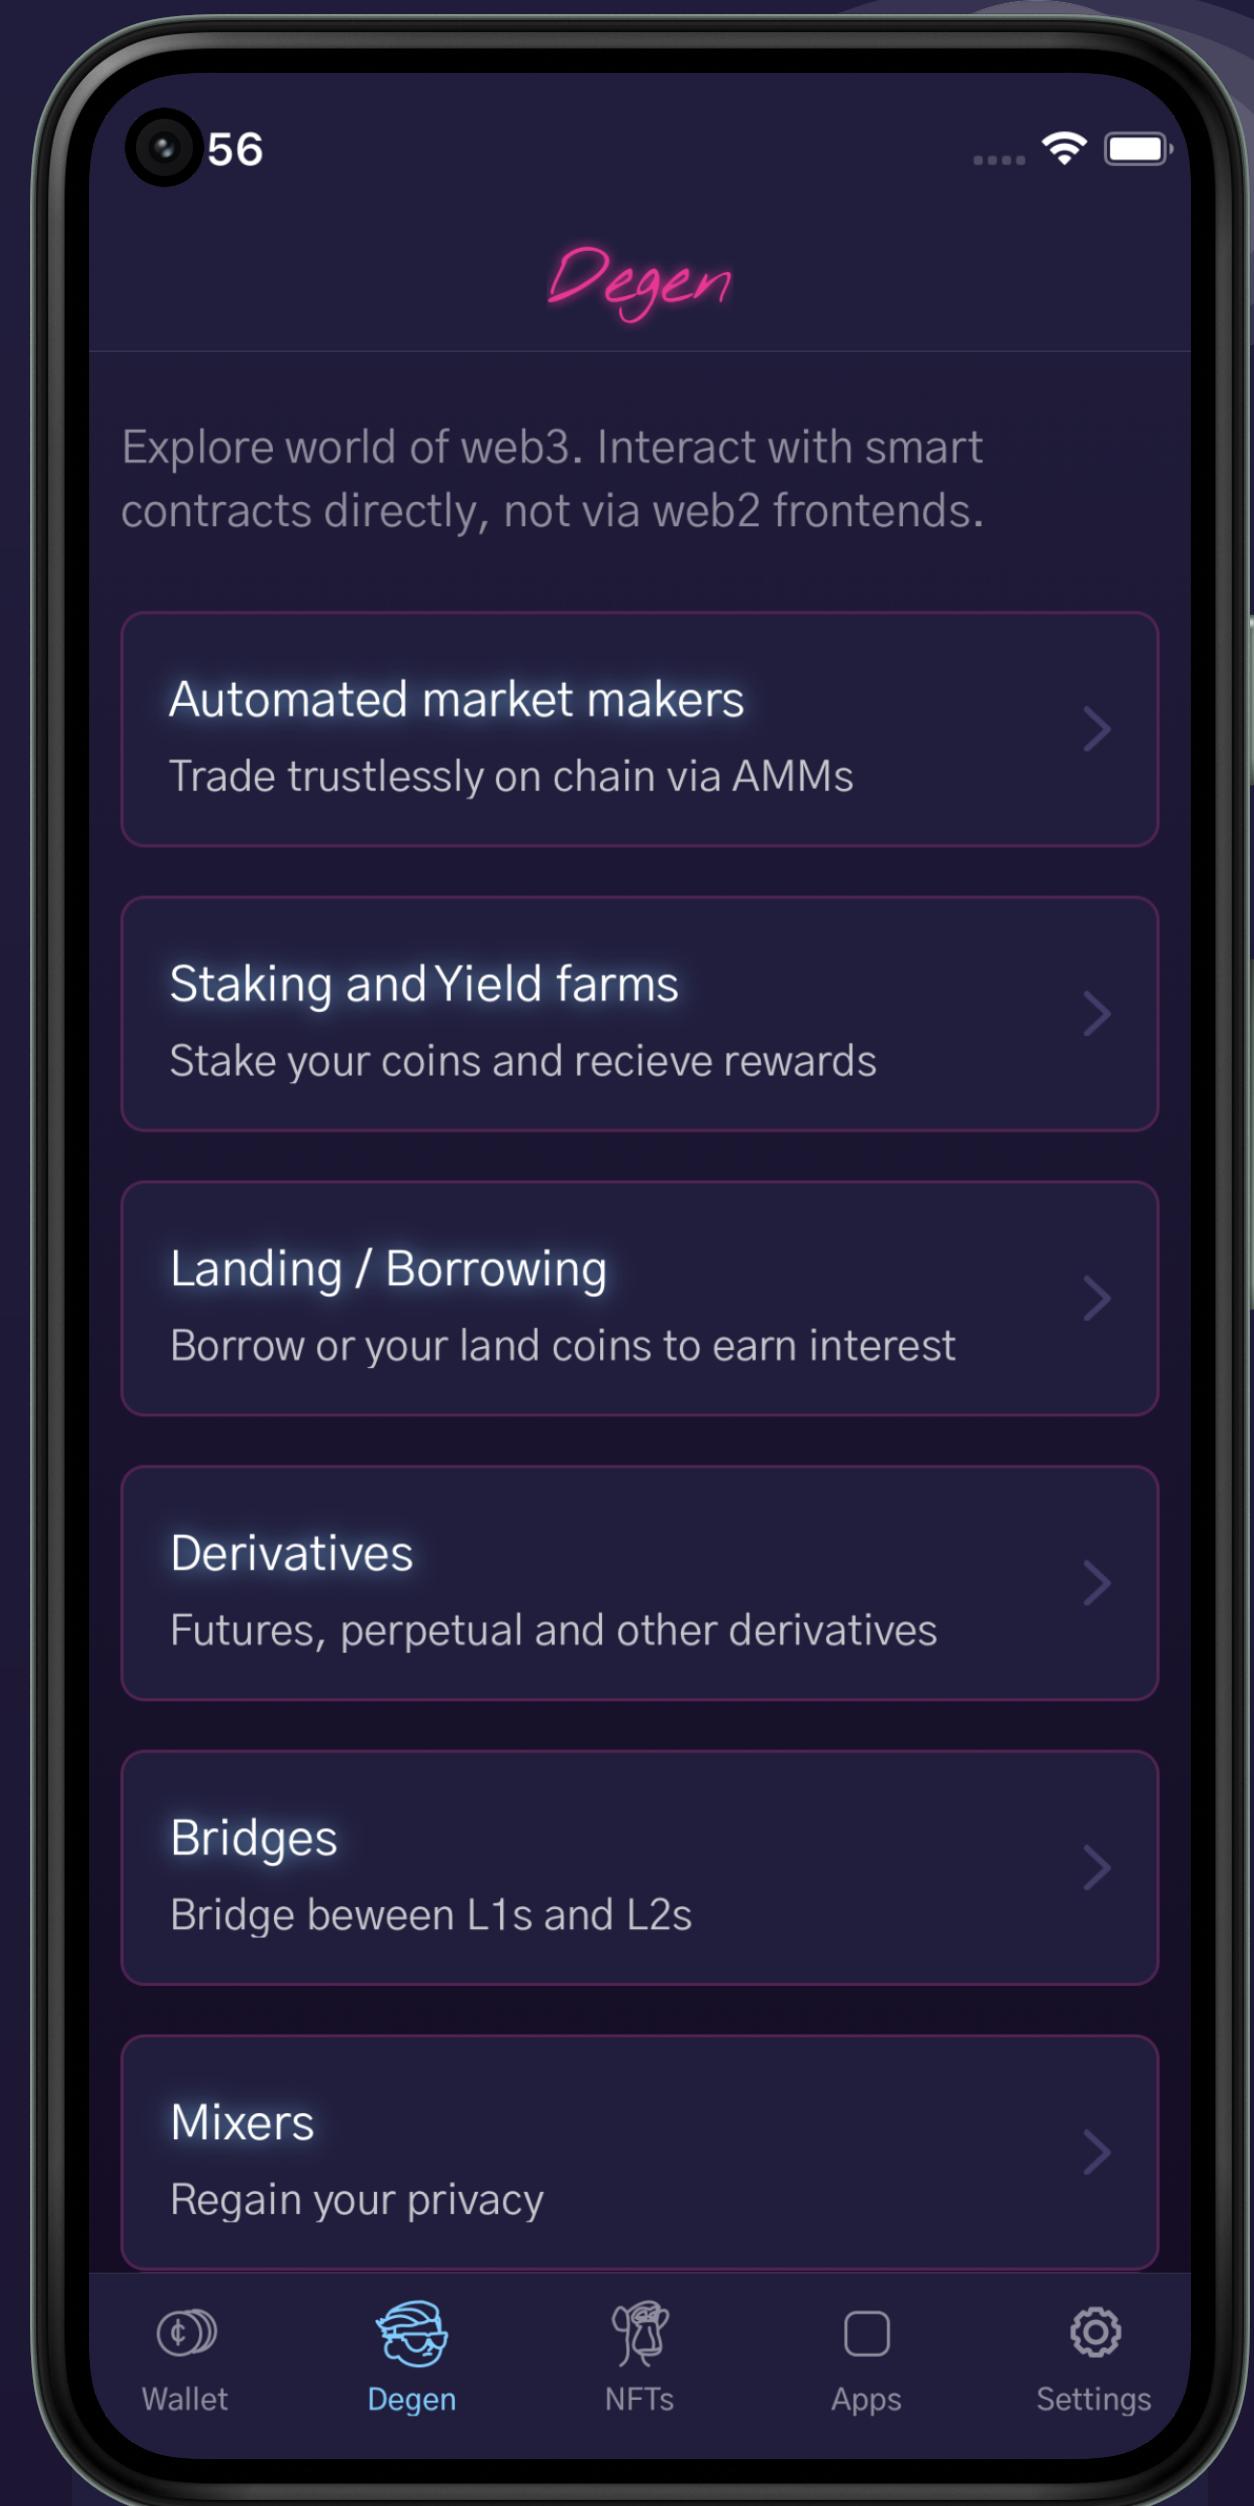

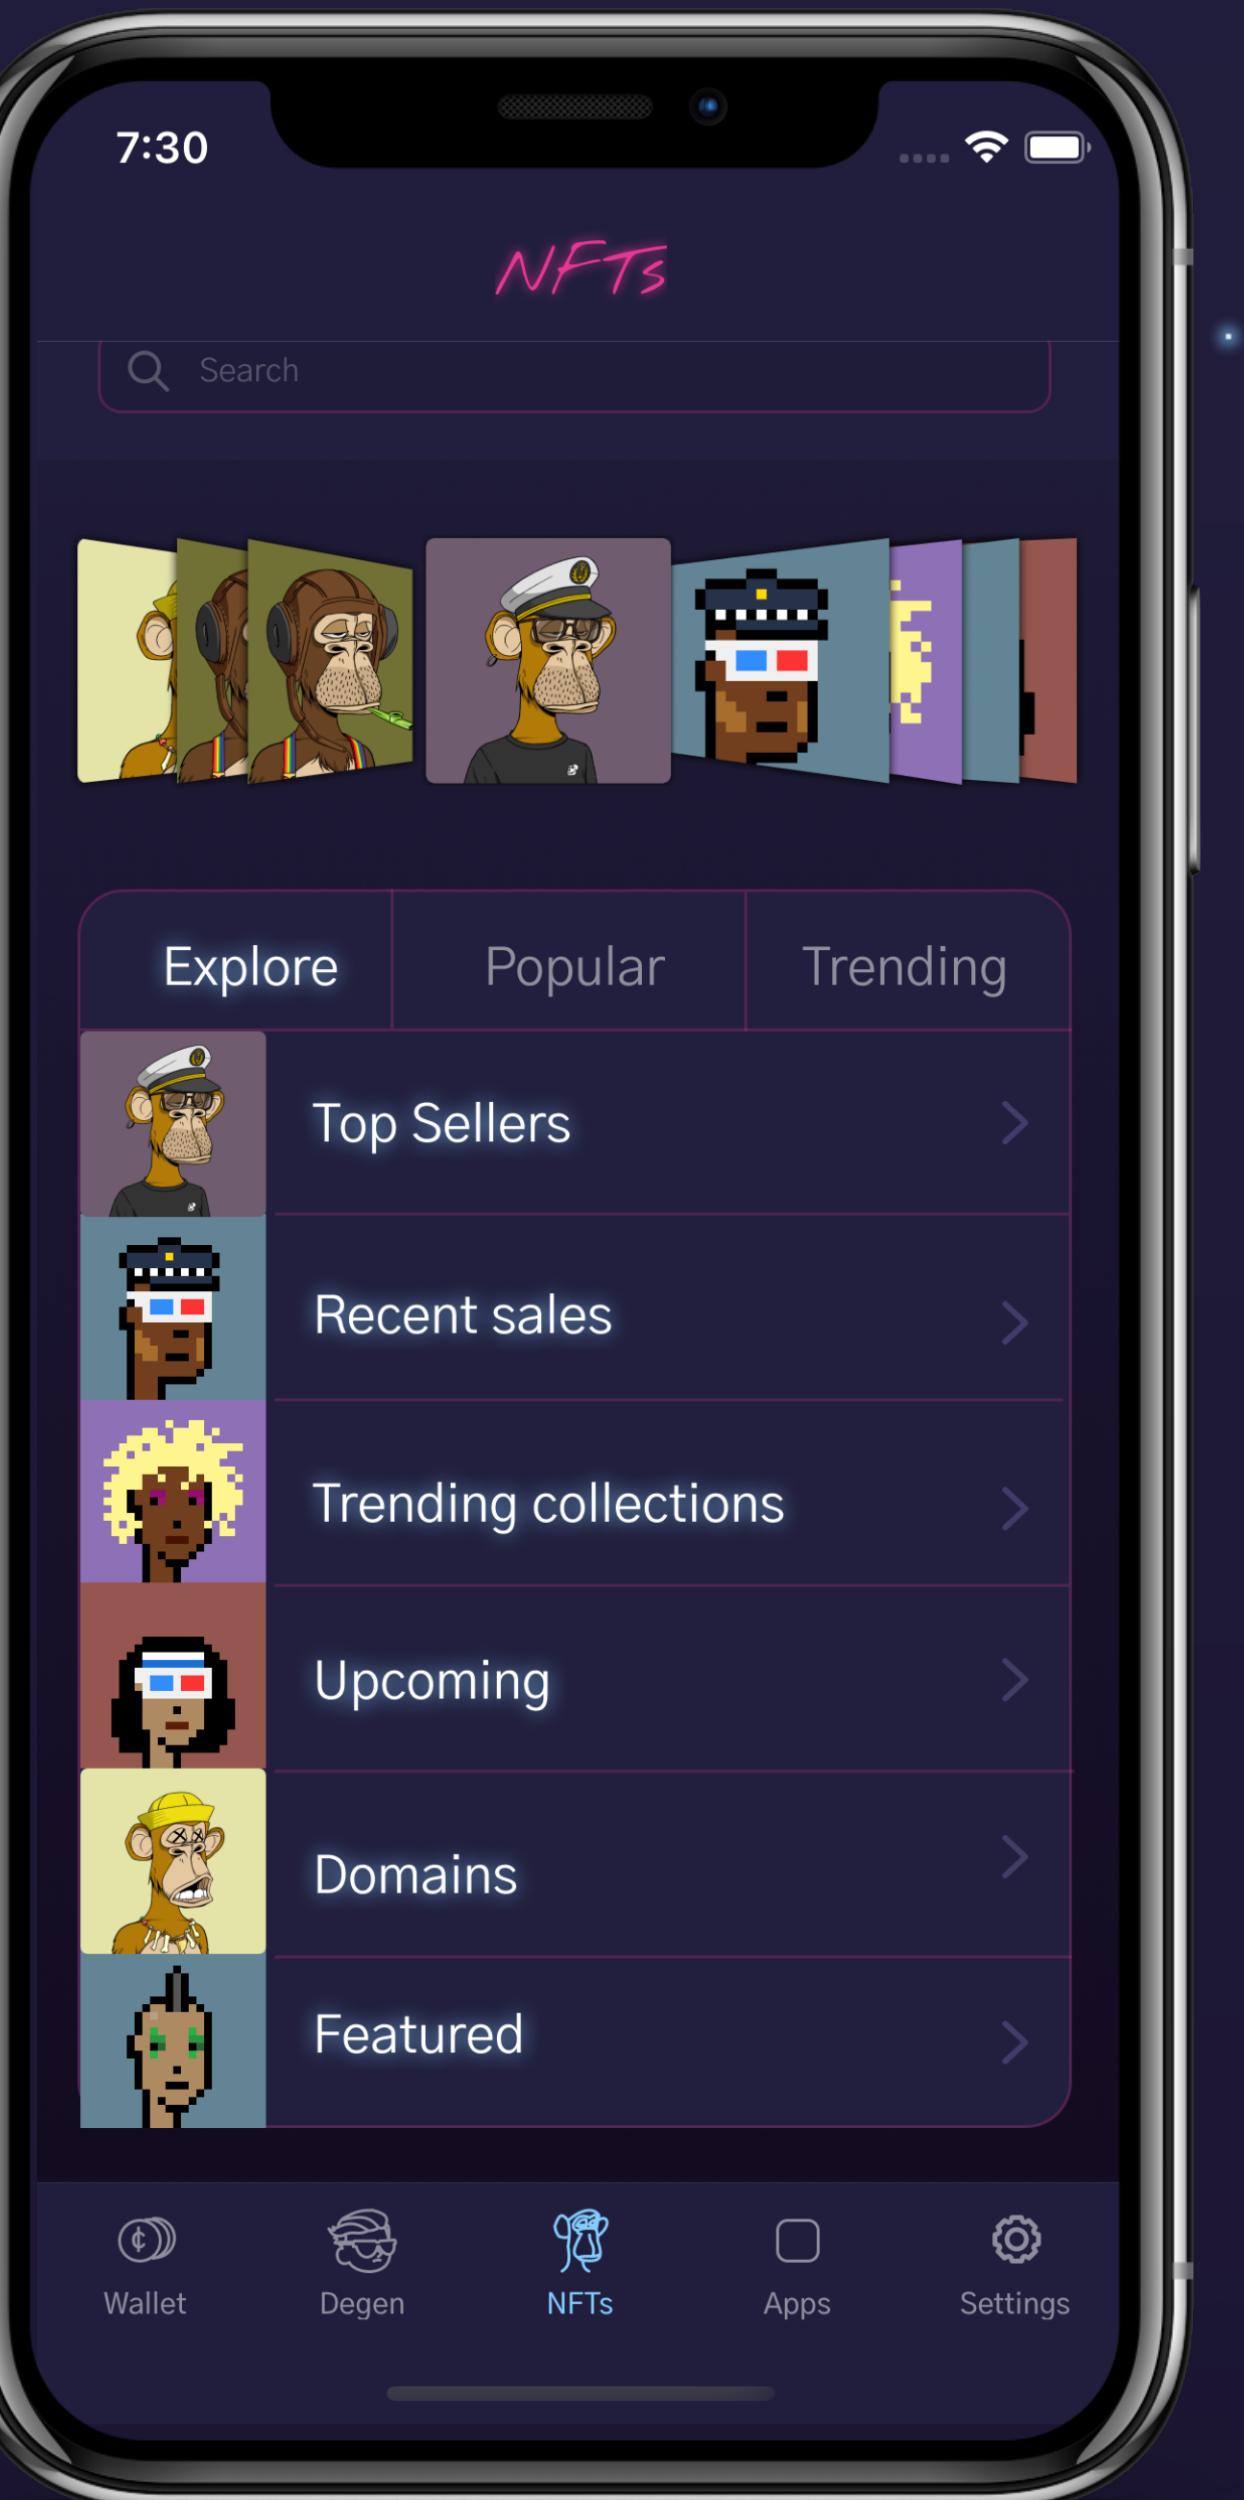

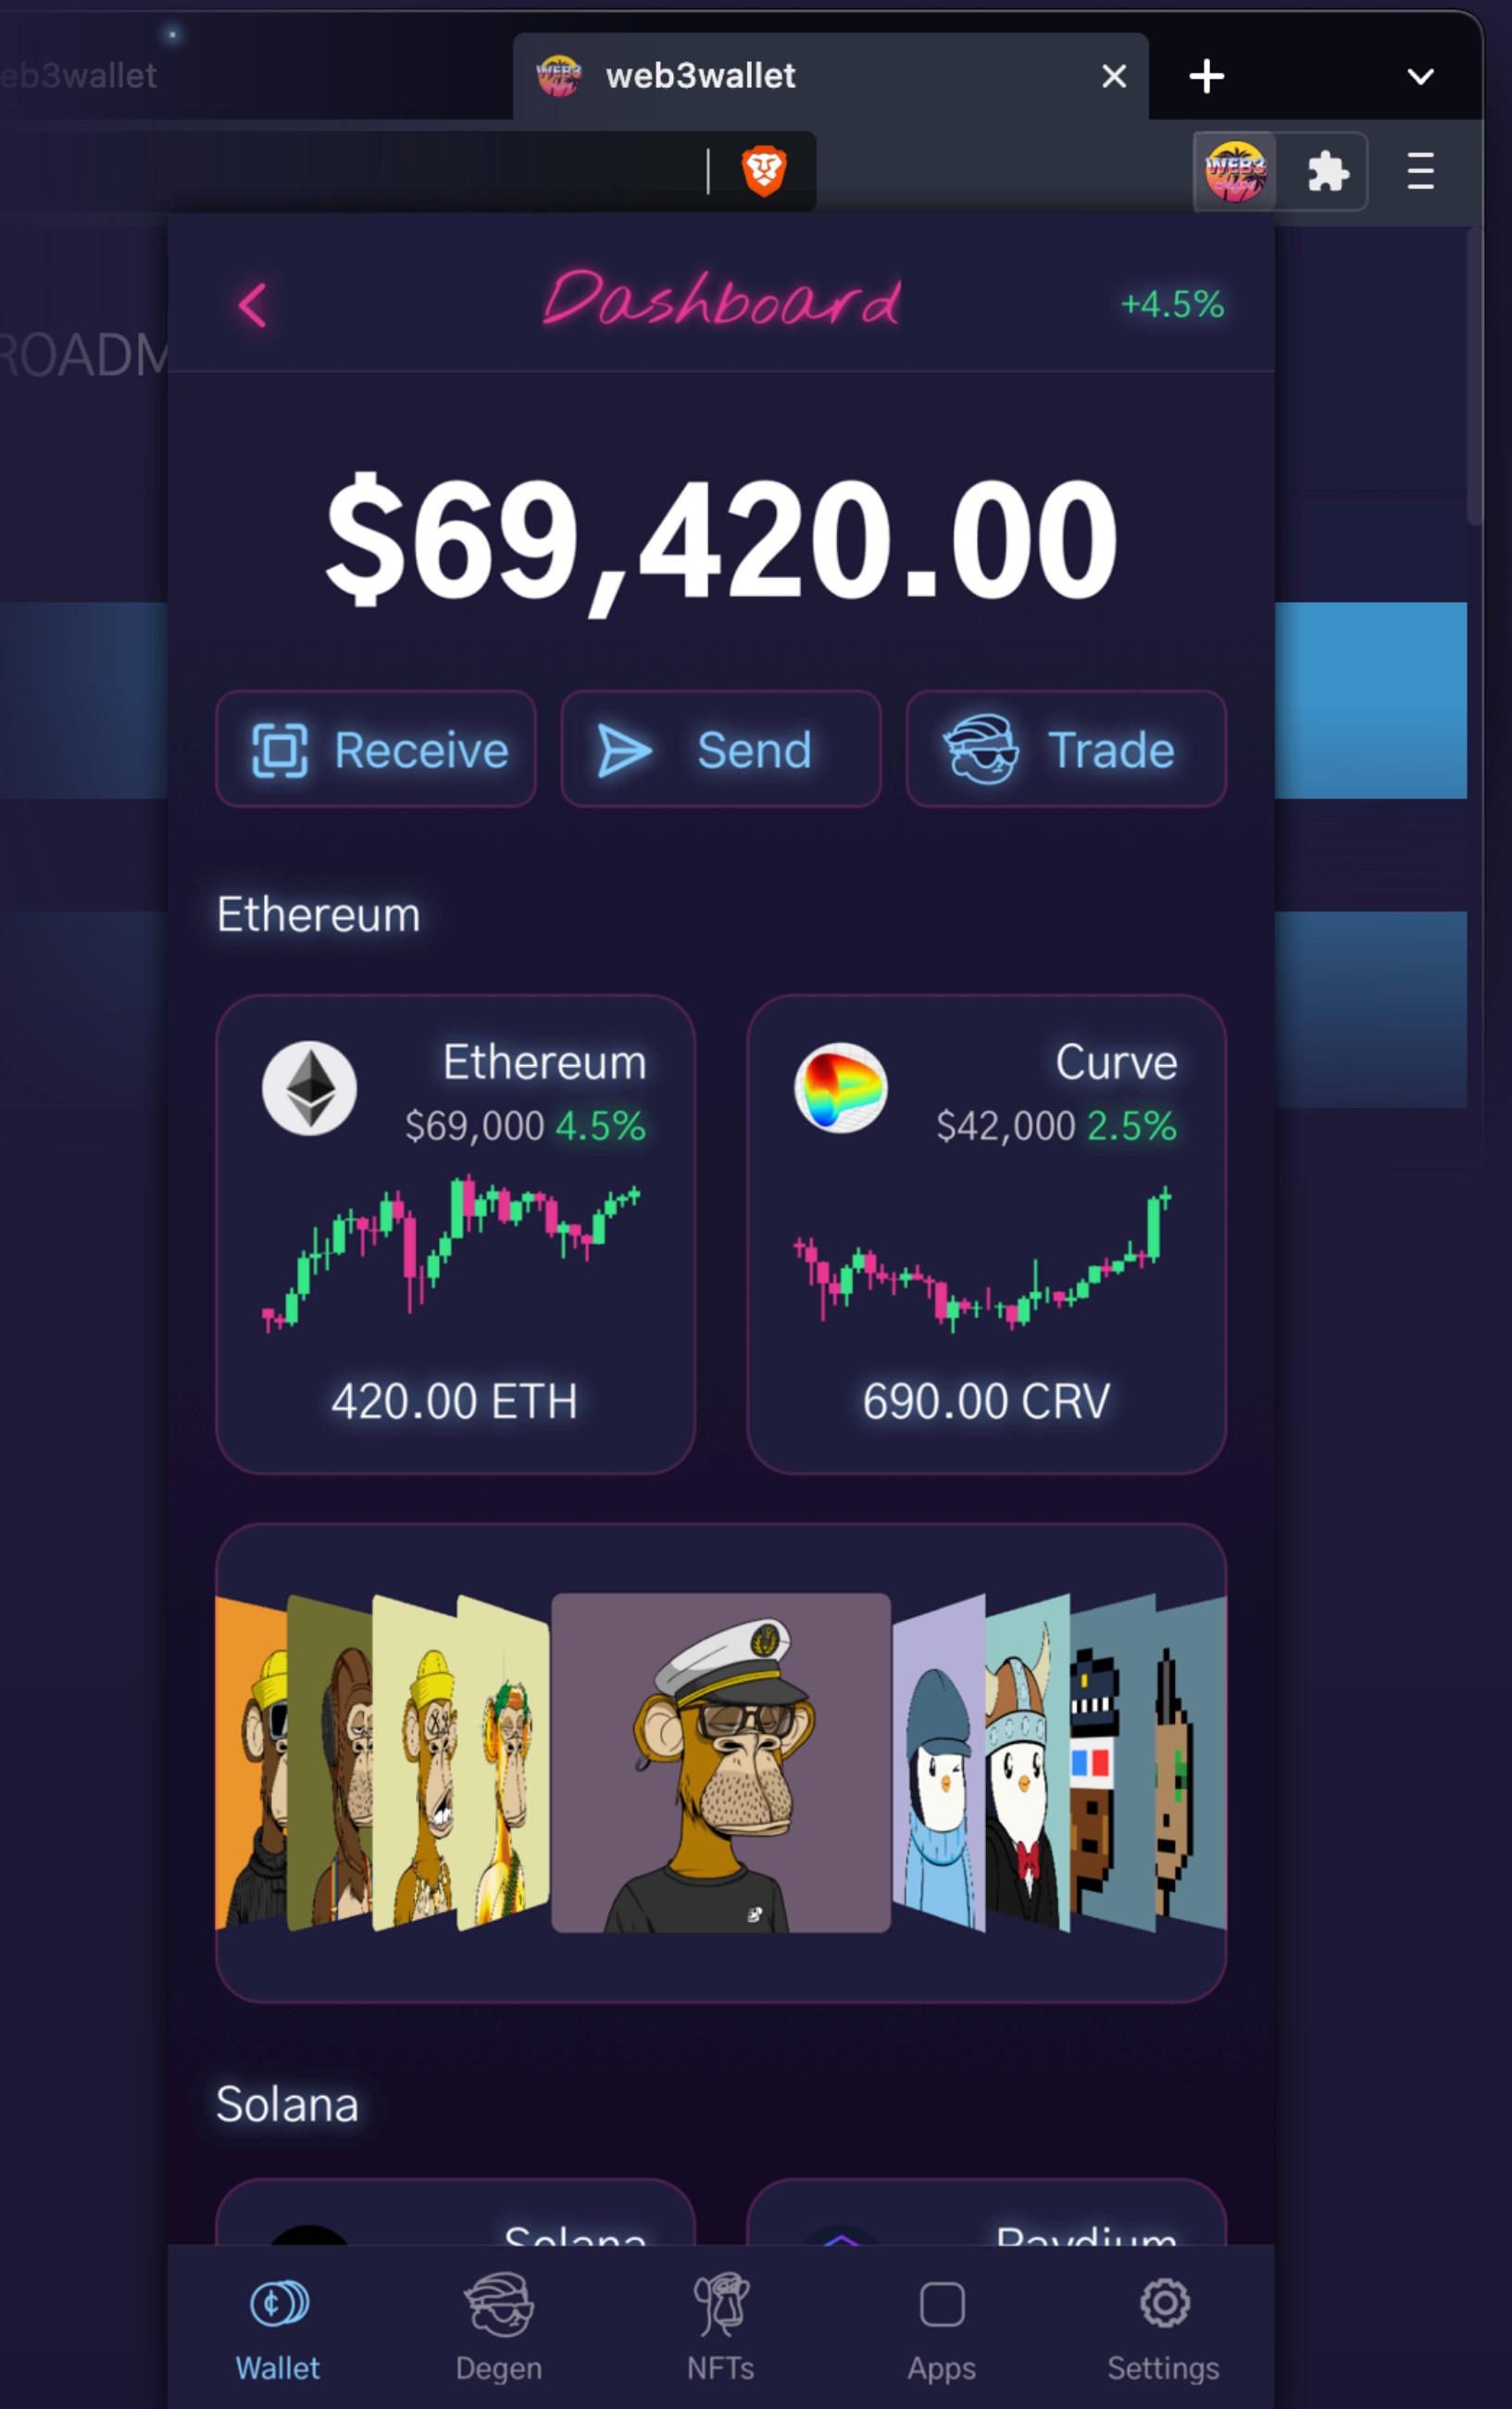

- Phantom wallet raised \$109mil at \$1.2bil valuation
- Metamask did \$300mil in in-apps swaps

wagmi

Market size

Product

Business model

Default alive

- Grants from network & dapps to support them in apps (~\$100k)
- White label services (~\$150k)

Bull market (even mid tier wallets can make \$1mil/month)

- Fiat on & off ramp fees
- Small fee for in apps smart contract interactions (Metamask did \$300mil just on swaps, we are building generic UI for all the DeFi product categories)

Competition

wagm!

Metamask, Rainbow, Phantom ect

Competitive Advantages

- We are degens, building products for ourselves
- Crypto is the hill we are willing to die at
- 10xers only
- We are not corporate or based in USA, therefore operate much closer to crypto ideals

Team

@cryptu5maximu5

ex – biggest companies in crypto
nearly decade in crypto
web / solidity / deep neural nets

@web3d3v

ex – number of top ten wallets
half decade in crypto
over decade in mobile

@web3designer

senior ex-Apple designer
DeFi products design experience

Financials / Tokenomics

- Total supply 1 billion w3t tokens
- 10% of supply sold at IDO \$0.0069420
- 10% awarded to stakers via yield farm over 6 months
- Various incentive and reward programs
- At phase 3 all the revenue generated in apps rewarded to staters via yield farm
